24. Local Bred and Fed Contest

Bred and Fed Project Entry Fee: Single entry fee per exhibitor, per species regardless of the number of pre-registered dams.

All animals entered in the Bred and Fed contest must also be entered in the Market Class.

It is the desire of the A.V. Fair Board of Directors to recognize the efforts of local junior breeders of quality market livestock with the following objectives:

1. To promote the education of Junior Exhibitors in the aspects of selection, breeding, caring for and marketing of beef, goats, sheep and swine.
2. Create an incentive for youth exhibitors to breed and raise their own livestock.
3. Build the breeding programs for the Antelope Valley Fair's agricultural district.
4. Ensure the ethical treatment and husbandry of the animals throughout the entire breeding process.

The following *tenets* will help to ensure the integrity of the Bred and Fed contest.

1. **Ownership:** The dam shall be owned by the exhibitor. Other exhibitors in the same household or their siblings or stepsiblings only may share ownership prior to breeding. No other forms of shared ownership of a dam are allowed.
2. **Participation in Breeding Process (Bred):** Exhibitors shall participate in the breeding and birthing process. Exhibitors shall be involved in the selection of the sire and be available to assist with birthing of the dam. The dam shall be in the care of the exhibitor and give birth within the boundaries as defined by Local Rule #6.
3. **Care of Offspring (Fed):** Bred and Fed offspring shall be cared for by the exhibitor from birth through market (from at least weaning with beef) within boundaries as defined by Local Rule #6.

Verification: Bred & Fed Project dams will be verified by the Organization Leadership (4-H, Grange, FFA, or AV Fair Staff for Independents) who are not related to the exhibitor using provided registration forms prior to breeding. Contact AV Fair Livestock office for registration forms prior to breeding. It is the exhibitor's responsibility to submit their signed pre-entry form to the AV Fair Livestock office prior to breeding and the AV Fair deadline for pre-entry to be eligible to compete.

Once entered in the Bred and Fed contest, the exhibitor will be required to notify their Organizational Leadership (or AV Fair Staff for Independents) who are not related to the exhibitor within 10 days of the dam giving birth to schedule an offspring registration. The offspring registration shall occur within the boundaries specified under Local Rule #6. Organizational Leadership (or AV Fair Staff for Independents) will verify the offspring of pre-registered dams using provided registration forms. Contact AV Fair Livestock office for registration forms. This signed offspring registration form must be completed and submitted to the AV Fair Livestock office within 30 days of the birth to be eligible to compete.

Market Ready animals only are eligible. Ribbons and trophies will be awarded for Champion and Reserve Champion Bred & Fed Market Animals. The Champion and Reserve Champion animals will be determined directly prior to the Supreme Grand Champion and Reserve Supreme Grand Champion market animals. Placing in these classes will result in sale with the other Champion Animals at the Kiwanis Junior Livestock Auction.

Implementation Plan for 2022 & 2023:

Regarding Swine, Goats, and Lambs:

Because the dams would have already been bred for 2022 prior to the implementation of any of these rules, the implementation would take place as follows.

Instead of requiring registration of the dam prior to breeding, dam Pre-Registration would occur after the offspring are born. Basically, this means that Dam Pre-Registration and the Offspring Project Check for Swine, Goat, and Lambs would occur within 30 days of birth and that the exhibitor would be required to notify the Organizational Leadership of their intent to potentially participate in the Bred and Fed contest within 10 days of their dam giving birth so that their project check could be performed in one visit. This is all that would be required for Swine, Goat, and Lamb for 2022.

Full implementation of all of the rules would begin for the 2023 fair for Swine, Goats, and Lambs wherein dam pre-registration would need to occur prior to breeding as proposed.

Regarding Beef:

Because the calves would have already been born and likely already weaned for the 2022 fair prior to implementation of the proposed rules, and because dams would have been already bred for the 2023 fair, full implementation of the rules would not be able to take place until the 2024 fair. The implementation for beef would therefore take place as follows:

For the 2022 fair, because the calves have already been born and weaned, no dam pre-registration would be required, however exhibitors would be required to declare their intent to participate in the Bred and Fed Contest within 60 days of the rules being passed by the Livestock Council. This would give ample time for word to spread to exhibitors in this category to participate in the 2022 Bred and Fed Contest. A project check of the calf alone by the Organizational Leadership would take place after being notified.

For the 2023 fair, because the dams would have already been bred, but would not have calved, the exhibitor would be required to declare their intent to participate in the bred and fed contest for the 2023 fair within 10 days of the calf or calves being born to schedule dam pre-registration with the dam and the calf within the district boundaries as defined by Local Rule 6. Basically, dam pre-registration and the offspring project check would be combined into a single visit.

Full implementation of the proposed rules would take place and be in effect for the 2024 fair for Beef. This means that dam pre-registration would need to occur prior to the dams being bred for the 2024 Bred and Fed Contest for beef (typically this would occur between February to April 2022).

25. All pens, stalls and surrounding areas are to be cleaned by exhibitors or helpers when the animals are released.
26. All Grand & Reserve Grand Market Goat, Sheep, Beef and Swine Champions may be tested for State of California prohibited drugs and illegal substances.
27. All Beef projects must have regulation rope halter and a regulation neck rope on when stalled.
28. **ALL ONLINE ENTRIES MUST BE COMPLETED BY THE ENTRY DEADLINE AND FORMS MAY BE RECEIVED AT THE ENTRY OFFICE NO LATER THAN THE ENTRY DEADLINE SINCE ONLINE ENTERING IS AVAILABLE.**
29. Letters must be on file in the Livestock Office for any exhibitor unable to show their animal in market classes or auction.
30. **NO PRIVATE SCALES ALLOWED ON THE FAIRGROUNDS AT ANY TIME. One weigh-In only.**
31. **Any animal that is over or under weight will automatically be re-weighed. The reweigh must be done before the animal leaves the scale area. Animals not meeting the specified weight requirements must be removed from the fairgrounds immediately following weigh-in if not ALREADY registered for showmanship.**
32. **The Management reserves the final and absolute right to interpret the rules and regulations.**
