All animals entered in the Bred and Fed contest must also be entered in the Market Class.

It is the desire of the A.V. Fair Board of Directors to recognize the efforts of local junior breeders of quality market livestock with the following objectives:

1. To promote the education of Junior Exhibitors in the aspects of selection, breeding, caring for and marketing of beef, goats, sheep, and swine.
2. Create an incentive for youth exhibitors to breed and raise their own livestock.
3. Build the breeding programs for the Antelope Valley Fair's agricultural district.
4. Ensure the ethical treatment and husbandry of the animals throughout the entire breeding process.

The following tenets will help to ensure the integrity of the Bred and Fed contest.

1. **Ownership:** The dam shall be owned by the exhibitor. Other exhibitors in the same household or their siblings or stepsiblings only may share ownership prior to breeding. No other forms of shared ownership of a dam are allowed.
2. **Participation in Breeding Process (Bred):** Exhibitors shall participate in the breeding and birthing process. Exhibitors shall be involved in the selection of the sire and be available to assist with the birthing of the dam. The dam shall be in the care of the exhibitor and given birth within the boundaries as defined by Local Rule #6.
3. **Care of Offspring (Fed):** Bred and Fed offspring shall be cared for by the exhibitor from birth through market (from at least weening with beef) within boundaries.

Verification: Bred & Fed Project dams will be verified by the Organization Leadership (4-H, Grange, FFA, or AV Fair Staff for

Independents) who are not related to the exhibitor using provided registration forms prior to breeding. Contact AV Fair Livestock

office for registration forms prior to breeding. It is the exhibitor's responsibility to submit their signed pre-entry form to the AV Fair Livestock office prior to breeding and the AV Fair deadline for pre-entry to be eligible to compete.

Once entered in the Bred and Fed contest, the exhibitor will be required to notify their Organizational Leadership (or AV Fair Staff for Independents) who are not related to the exhibitor within 10 days of the dam giving birth to schedule an offspring registration. The offspring registration shall occur within the boundaries specified under Local Rule #6. Organizational Leadership (or AV Fair Staff for Independents) will verify the offspring of pre-registered dams using the provided registration forms. Contact AV Fair Livestock office for registration forms. This signed offspring registration form must be completed and submitted to the AV Fair Livestock office within 30 days of birth to be eligible to compete.

Market Ready animals only are eligible. Ribbons and trophies will be awarded for Champion and Reserve Champion Bred & Fed Market Animals. The Champion and Reserve Champion animals will be determined directly prior to the Supreme Grand Champion and Reserve Supreme Grand Champion market animals. Placing in these classes will result in sale with the other Champion Animals at the Antelope Valley Fair Junior Livestock Auction.

Regarding Swine, Goats, and Lambs:

Full implementation of all the rules would begin for the 2024 fair for Swine, Goats, and Lambs. This means that dam pre-registration would need to occur prior to breeding as proposed.

Regarding Beef:

Full implementation of the proposed rules would take place and be in effect for the 2024 fair for Beef. This means that dam pre-registration would need to occur prior to the dams being bred for the 2025 Bred and Fed Contest for beef.

A. V. FAIR GROOMING & FITTING:

It is the intent of the Antelope Valley Fair to promote the junior livestock exhibitors learning experience while participating at the fair. The revision of this rule and the enforcing of it will hopefully create a learning environment for all.

RULES:

Junior exhibitors are expected to groom and care for their animal(s) while preparing for their show at the fair. They shall NOT accept active assistance from adults and non-exhibiting youth unless the junior exhibitor is actively engaged and a current AV Fair Large Livestock exhibitor, and the assistance is only for instruction. The junior exhibitor (owner) MUST be there. State Rule VII: Livestock Other #1

ENFORCEMENT:

The Fair Management states no person, other than a current AV Fair large livestock junior exhibitor, shall perform any clipping, grooming, or fitting of an animal while on the fairgrounds. Physical assistance in this process is limited by the above exception. Verbal assistance is encouraged and accepted. Fair management and leaders will use their discretion in the supervision and enforcement of this rule. Junior exhibitors, who for extraordinary reasons cannot fit, or show their animal, must contact the Fair management in writing prior to the date of fair. The management will therefore decide if that individual can have assistance in fitting, grooming, or showing that animal. If additional assistance is approved, the exhibitor must notify the livestock office in writing who will be assisting.

Feeding animals and cleaning pens for exhibitors in school is an exception that is approved by fair management.

SWINE ONLY MAY BE CLIPPED IN THE PEN IF THE SHEARING IS DONE WITH BATTERY OPERATED SHEARS. NO ELECTRIC SHEARS OR GENERATORS MAY BE USED. Violation of the above rules may result in disqualification from the **Junior Livestock Auction and/or Showmanship.**

Health/Veterinarian

1. **ALL ANIMALS MUST HAVE ACCESS TO POTABLE WATER DURING THE ENTIRE FAIR.** Any additives must be declared, approved, and supervised by livestock office staff or fair veterinarian.
2. **Animals must consume food and water voluntarily; the use of any device or equipment other than a standard feed pan is strictly prohibited without the supervision and direction of the official veterinarian or designated fair official. Any violations of this rule may result in exhibit and/or exhibitor being disqualified.**
3. **BEDDING:** The Exhibitor will furnish ALL bedding for livestock. All animals must be on some form of bedding.
Unsanitary pens will receive one official warning, on the second offense animals will be removed from the auction.
4. **SICK OR AILING ANIMALS:**
To eliminate delay in treatment of sick or ailing animals or poultry exhibits, the owner extends authority to take such action as deemed expedient and necessary, to Fair Management, when and after diligent attempts to make contact with the owner or agent of said exhibit. Fair Management has the power of attorney for the exhibitor in this instance by virtue of signing the original entry form. The 50th District Agricultural Association will not assume any cost for action pursuant to this rule.
a) A Veterinarian Sifting Committee will determine health eligibility of all animals prior to penning. CHECK-IN WILL OCCUR ON THE DAY OF ARRIVAL.
